

William and Mary Jane Brinton Neighborhood Counseling Program

Mrs. Mary Jane Brinton and Vickie Gonzalez, Director of Mental Health Services at the program launch press conference December 11, 2009.

Thanks to the generous gift made by William & Mary Jane Brinton, SBNC is now providing vital, low-cost, bi-cultural and bilingual mental health services to our patients within the comfort of their medical home on-site at Westside, Eastside and Isla Vista Clinics. Looking toward the future, SBNC is building on this leadership gift within our community to create additional funding. We have entered into a long-term partnership with Santa Barbara County Alcohol Drug and Mental Health Services (ADMHS). Both of these collaborations will be crucial for the long-term sustainability of the *Neighborhood Counseling Program*.
